LOFT

An Italian tile **made in the USA**

Loft is a color-body, rectified, porcelain tile inspired by the weighted memories clung to earth by way of home. Loft is a representation of that memory, a clean and happy place, full of creativity and warmth. Available in 6" x 36", 9" x 36", 24" x 24", along with coordinating 3" x 36" bullnose and two variations of mosaic, this tile provides you with the opportunity to express your own ingenuity. The 24" x 24" can be used alone or in a pattern with the other sizes for a unique installation; while the rectified format allows you to achieve tighter grout joints that more closely represent the natural product.

Florim offers products containing recycled material. The adoption of eco-compatible production systems is merit of Italian designs produced in the U.S.

TECHNICAL DEVELOPMENT THAT CONSIDERS THE NATURAL ENVIRONMENT

Florim commits to the eco-compatible project and translates the same into an avant-guard production process, minimizing the negative impact on the environment.

WHY PORCELAIN?

There are many reasons to choose impervious porcelain tile over other floor coverings. It offers the largest array of design options and holds its value the longest. In a comparison between the many different flooring options, porcelain tile offers one of the most durable and least expensive options over the lifespan of the building.

Benefits of Porcelain Tile

- Impervious to water
- Easy to maintain
- Variety of design options
- Environmentally friendly
- Resistant to germs and bacteria
- Fade resistant
- Fire resistant
- Durable - best long-term value vs. other floor coverings

CLEANING & MAINTENANCE

Routine care instructions:

1. Wash with water to remove superficial dirt.
2. Application of Fila Cleaner® Fila (commercial product) diluted to an average of 1:200 to the surface.
3. Let the solution sit 5-7 minutes.
4. Remove the cleaner with a vigorous mechanical cleaning action using common hand cleaning equipment, or a suitable floor-cleaning appliance.
5. Dry the floor completely.

Note: For desired results, it is particularly important to combine the effect of the detergent with a vigorous mechanical cleaning action.

The products mentioned in these instructions do not officiate any official agreements with any floor cleaning product producers.

COLOR SHADE VARIATION

Each FLORIM product is characterized by a degree of color shading that varies from product to product, from color to color. Color shading means chromatic variation from tile to tile in every box. It is not possible to request FLORIM in color shade variations other than those shown per item.

V1

The least amount of shade and texture variation. Attainable in naturally fired clay products.

V3 - Smoke, Ivory

High shade texture variation within each carton.

V2

Light to moderate shade and texture variation within each carton.

V4 - Multicolor

Very high shade and texture variation within each carton.
