calacatta picasso

Calacatta Picasso, originario della Garfagnana, in Italia, che fa della diversità la sua caratteristica principale. Il suo fondo di colore bianco e crema è avvolto da venature grigie, nere e rossicce che creano movimenti "grafici" ricchi di colori e di design sorprendenti.

Calacatta Picasso, originally from Garfagnana in Italy, it makes diversity its key feature. Its white and cream background is wrapped in grey, black and reddish veins which create "graphic" movements rich in surprising colours and designs.

onyx white absolute

L'onice calcarea ha origini ben lontane nella storia: è il 'marmor alabastrum' dei Latini ove alabastrum deriva da una fortezza detta "Alabastra", costruita a Tebe in Egitto e dove vi erano numerose cave usate per l'edificazione dei templi. Questa tipologia di marmo in natura si contraddistingue per la sua intensa lucentezza innestata in un fondo chiaro, con bande di vario spessore che vanno dall'avorio al color vaniglia.

The origins of the limestone onyx go way back in history: it is the 'marmor alabastrum' of the Latins where alabastrum derives from a fortress known as "Alabastra" built in Thebes in Egypt and where there were a number of quarries used to build the temples. This kind of marble in nature makes its mark thanks to its intense shine inserted into a clear background, and stands out for its strips of varying thickness that range in colour from ivory to vanilla.

inv white

Un marmo estratto in Asia Minore, composto quasi unicamente di Dolomia che si è trasformata col tempo e col calore in una pietra cristallina e leggermente trasparente. È caratterizzato da uno sfondo bianco attraversato da un reticolo largo di venature grigie che a volte hanno piccole sedimentazioni quasi ambrate.

A marble extracted in Asia Minor and made up almost exclusively of dolomite rock which transformed over time and with the heat into a crystalline, slightly transparent stone. It has a white background widely laced with grey veins which sometimes present small almost amber sedimentations.

panda white

Un marmo davvero sorprendente che proviene dall'Estremo Oriente. È fortemente caratterizzato da uno sfondo bianco, accentuato da linee di un nero intenso a strisce più larghe o onde più spesse, il tutto completato da una cristallizzazione bianca su fondo chiaro che ne sottolinea la trasparenza.

It is a truly surprising marble from the Far East. It is strongly characterised by a very white background, accentuated by intense black lines with wider stripes or thicker waves and all completed with a white crystallization on the clear base which highlights its transparency.

quartzite patagonia

È una delle pietre più particolari e scenografiche esistenti in natura. Estratta in Sudamerica, in particolare in Brasile, è di origine vulcanica e la sua struttura geologica è dovuta a milioni di anni di attività sismica. Il magma risalendo verso la superficie, raffreddandosi, si è cristallizzato incorporando al proprio interno le rocce e i minerali incontrati nel corso del suo cammino.

It is one of the most unusual and attractive stones that exists in nature. Quarried in South America, especially in Brazil, its origins are volcanic and its geological structure comes from millions of years of seismic activity. As the magma rose to the surface and cooled, it crystallised and incorporated all the rocks and minerals it encountered on its path.

grey roots

Un marmo di particolare fascino, originario dell'Anatolia, caratterizzato da un luminoso colore di fondo, il grigio argento, ed arricchito da zone miscelate tra loro che vanno dalle tonalità del bianco al grigio. Sulle superficie affiorano increspature e solchi dai toni caldi dell'oro e del crema che donano un effetto di piacevole contrasto con lo sfondo grigio, conferendo al Grey Roots un senso di antica regalità e valore.

A particularly appealing marble, originally from Anatolia, characterised by a bright silvery-grey background colour, and enriched by areas mixed together, ranging from white to grey shades. Ripples and cracks appear on the surface in warm shades of gold and cream that give it a pleasant contrasting effect against the grey background, giving the Grey Roots a sense of ancient regality and value.

gris breche dumas

E' il nome conferito a questa breccia, originaria dei Pirenei, in omaggio al noto drammaturgo francese Alexander Dumas. Un marmo sempre più difficile da reperire poiché la cava di estrazione è sostanzialmente esaurita. Per Imola l'intento è stato quello di riproporre sulla lastra ceramica l'estetica francese di questa roccia che si contraddistingue da un morbido e luminoso grigio chiaro di fondo e da sottili venature e sfumature tono su tono.

This is the name given to this pebble, originally from the Pyrenees, as a tribute to the famous French playwright, Alexander Dumas. An increasingly difficult marble to find because the quarries are basically empty. Imola's aim was to reproduce the French look of this rock on this ceramic slab that makes its mark with its soft, shiny light grey background and fine veining and tone-on-tone shades.

onyx aqua blue gold

Il marmo onice è formato da sedimenti calcarei colorati di acqua sorgiva e d'infiltrazione. Di provenienza asiatica, è un minerale che si caratterizza per il suo effetto di splendente trasparenza in superficie: una proprietà che lo rende molto raro e particolarmente adatto per gli elementi d'interni dall' elevato tocco di esclusività. Colori frequenti sono il giallo, il marrone, il rosso e il verde, declinati in sfumature inimmaginabili.

The onyx marble is made up of sedimentary limestone coloured by spring water and infiltration. Of Asiatic origin, it is a mineral that stands out for its shiny transparency effect on the surface: a feature that makes it extremely rare and particularly suited to interior design objects with a strong hint of exclusivity. Recurring colours include yellow, brown, red and green, that appear in unimaginable shades.

VANITY

by The Room™

A special selection
of brilliant beauty

Una selezione speciale di luminosa bellezza
che si evidenzia maggiormente con luce diretta
naturale o artificiale.

A special selection of sparkling beauty, further
highlighted with direct natural or artificial light.

VANITY

by The Room™

La capsule della collezione dedicata ai prodotti marmorei ottenuti con l'utilizzo di nuove materie prime che riproducono in modo magistrale l'effetto della cristallizzazione del prodotto naturale, ottenuto in milioni di anni, nella parte sottostante alla superficie lucida (Lappata Kristall LK). Una selezione speciale di luminosa bellezza che si evidenzia maggiormente con luce diretta naturale o artificiale. Queste superfici trovano massima espressione nel formato lastra 278x120 cm e, a completamento nel formato 60x120 cm, per l'utilizzo della finitura LK a rivestimento.

The collection's capsule of marble products with the use of new raw materials which magnificently reproduces the crystallisation effect of the natural product, obtained over millions of years, in the lower part of the polished surface (Kristall Lapped LK). A special selection of sparkling beauty, further highlighted with direct natural or artificial light. These surfaces find maximum expression in the 278x120 cm slab and, culmination in the 60x120 cm format, for use of the LK finish as cladding.

BLOSSOM

by The Room™

Special selection
in mini size

Versatilità di composizione e stile anche
in ambienti piccoli con i best seller della
collezione in formati 'mini'.

Complete composition versatility and style even in
small spaces with the best sellers of the collection
in the 'mini' sizes.

BLOSSOM

by The Room™

Una selezione speciale dei best seller della collezione in formati ‘mini’ quali il 30x60 e il 60x60 cm per offrire una completa versatilità di composizione e stile anche in ambienti piccoli, ambiti legati all’horeca e altri contesti che richiedono estetica e formati più ridotti. Il tutto è disponibile nella finitura naturale e nello spessore sottile a 6,5 mm.

A special selection of bestsellers in the ‘mini’ shape collection such as the 30x60 and the 60x60 cm to offer complete composition versatility and style even in small rooms, areas linked to horeca and other contexts which require compact aesthetics and sizes. All available in a natural finish and 6.5 mm slim thickness.
