**The beauty of
feeling at home**

A fresh perspective to interior design

Introducing Contemporary by Panaria Ceramica, a sophisticated fusion of modern design and natural allure, inspired by the French stone from the Bourgogne region and the rugged landscapes of Nevada. With its clean lines and chic aesthetic, Contemporary brings a fresh perspective to the world of design.

Drawing inspiration
from the organic
beauty of natural
stone

Redefining contemporary elegance

Crafted from coloured-body porcelain, this series redefines contemporary elegance. Each tile embodies the delicate details of limestone and the irregularity of slate flakes, evoking a sense of modernity and urban charm, perfect for residential and architectural projects seeking solidity and detail.

Durable, practical,
functional and hygienic:
porcelain stoneware is
an unrivalled surface

Adding creativity and movement within your space

**Different formats and cut decors
create richly nuanced surfaces that
are dynamic, yet always harmonious**

Style beyond the home: elegant and sophisticated commercial spaces

Beyond residential spaces, Contemporary finds its place in commercial environments, from boutique hotels to upscale restaurants, where its enduring quality and refined elegance make a lasting impression. With a palette of nature-inspired hues and coordinating accessories, designers can create captivating environments that reflect the essence of their brand, elevating the ambiance of any commercial space.

MORE SUSTAINABLE

*Thanks to a production process that is
extremely efficient in terms of compliance
with environmental standards and consumption
of water, energy and raw materials*

20 mm

20 mm porcelain stoneware **for outdoor**

20 mm porcelain stoneware has the highest technical performance of any product and is perfect for outdoor spaces, with no risk of breakage. It enables solutions that create seamless continuity between interior and exterior spaces. Resistant to frost and to thermal shock, it also has heightened anti-slip characteristics, maintains its texture and color over time, and is easy to clean. The perfect union between aesthetic quality and high technical performance, guaranteeing limitless durability.

RESISTANT AND FUNCTIONAL

Superior mechanical strength and slip resistance, highly resistant to heavy loads.

EASY AND VERSATILE

Simple to install, remove and reuse; easy to clean.

Resistant to vehicular passage when applied to a screed with adhesives.

AN ETERNAL SURFACE

The product and its colors remain stable over time and are highly resistant to stains.

SUITABLE FOR ALL OUTDOOR USE

Resistant to frost, fire, atmospheric agents, thermal shock, acids, mold and salt.

Can be combined with products for interior spaces seamlessly and without interruptions.

ECO-FRIENDLY

Manufactured in a way which respects and protects the environment.

 SLIP RESISTANCE	DIN51097	-	R11 20 mm Anti-Slip
	ANSI A326.3	Porcelain A326.3	IW+ 9 mm Soft - Leather EW 20 mm Anti-Slip
 SHADE VARIATION	ANSI A137.1	V2	V2 Slight Variation
 FLAME SPREAD	ASTM E84	-	Class A
 THERMAL CONDUCTIVITY	EN 12524	-	λ = 1,3 W/m °K / 0.7 BTU/ft h °F
		-	
 RECOMMENDED MINIMUM JOINT^(**)	RECT (INDOOR)	-	1/8" - 3.2 mm approx.
	OUTDOOR	-	3/16" - 4.7 mm approx.
 THICKNESS	SIZES		
	12"x24" Rect - 30x60 cm	-	9 mm
	24"x48" Rect - 60x120 cm	-	9 mm
	36"x36" Rect - 90x90 cm	-	9 mm
	24"x24" Rect - 60x60cm	-	20 mm

(*) Excluding hydrofluoric acid and its derivatives.
(**) Grout Joint Recommendations. Per TCNA Handbook, the minimum required joint width for ceramic tile and natural stone is 1/16". Setting ceramic or stone without a grout joint of a least 1/16", often referred to as a butt joint, does not provide sufficient accommodation for dynamic building movement, differential thermal expansion, or allowable variation in fabrication or manufacturing.

Product designed in Italy and made in USA

PANARIA AND THE ENVIRONMENT

100% REUSE OF UNFIRED TILES
Crude waste generated by the process is reintegrated in the production cycle with no costs for the environment. This contributes to the safeguard of natural resources.

100% REUSE/RECYCLING OF THE INDUSTRIAL WASTE - FIRED TILES
The waste-fired tiles are fully reused in the production cycle. In addition, at the end of life, the tiles Panaria can be recycled as materials for substrates for roads and buildings, thus reducing the use of gravel and natural aggregates commonly used in building.

100% WATER RECYCLING
The water used in the production process is recycled. The water demand is strongly reduced by this mean.

PANARIA PACKING MATERIAL IS 100% RECYCLABLE
Carton boxes, plastic packaging materials, wooden pallets, straps, etc.

100% OF NON CERAMIC WASTE
Is differentiated and recycled in other production cycles.

SAFETY REQUIREMENTS: NO FIRE REACTION
All of Panaria's ceramic tile products are Class A building materials as described in ASTM E84 - Standard Test Method for Surface Burning Characteristics of Building Materials. This is due to the flame spread rating of (0) and smoke developed rating of (0) falling within the ranges of a Class A material. Other building codes refer to this as a Type I material in accordance with NFPA 255.

METHANE CONSUMPTION IS HIGHLY REDUCED
By the use of up to date technologies and customized installations.

LOW EMISSIONS IN THE ATMOSPHERE
Panaria production plant strictly complies to US Standards with a very small amount of gas emissions in the atmosphere.
